### **Allision of a wind turbine in the wind farm Godewind 1 by PETRA L on 24 April 2023**

The complex investigation into the accident has since been completed and the BSU is currently in the process of compiling the investigation report. Because the one-year deadline for publication, set by the European Union and adopted as national law by the Federal Republic of Germany, cannot be met, the public is informed about the status of the investigations into this serious marine accident by means of the publication of an interim investigation report.

All investigation reports, safety recommendations as well as other publications of the BSU are available for download at
